

Notice on disqualification of Beluga

JPK 10.30 Beluga is disqualified from Vegvisir Race Nyborg 2022

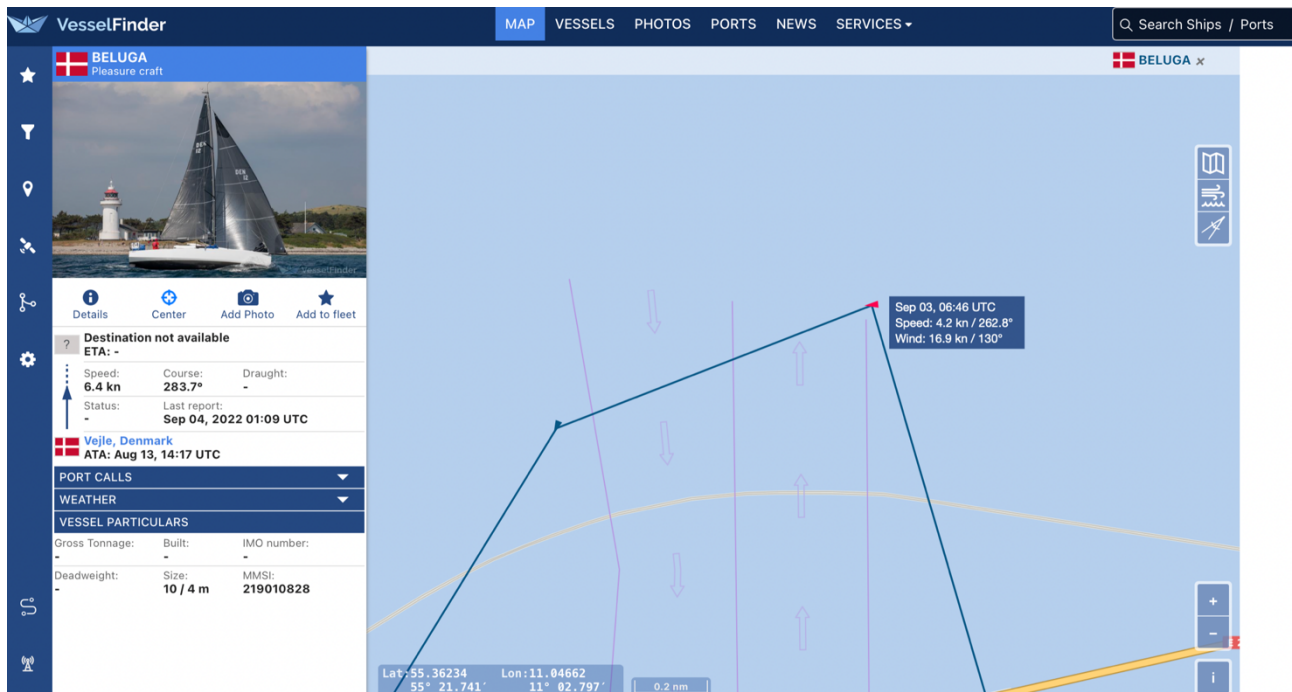

In the aftermath of the decision to compensate Lightworks with 45 min. (see the document "Decision" on the Official Notice Board) a competitor has led the attention of the race committee on an irregularity of the rounding of the mandatory mark E25A on the 238 NM course described in the Sailing Guidelines 5.3.

The investigation shows that Beluga rounded the mark E26 instead of the mandatory mark E25A.

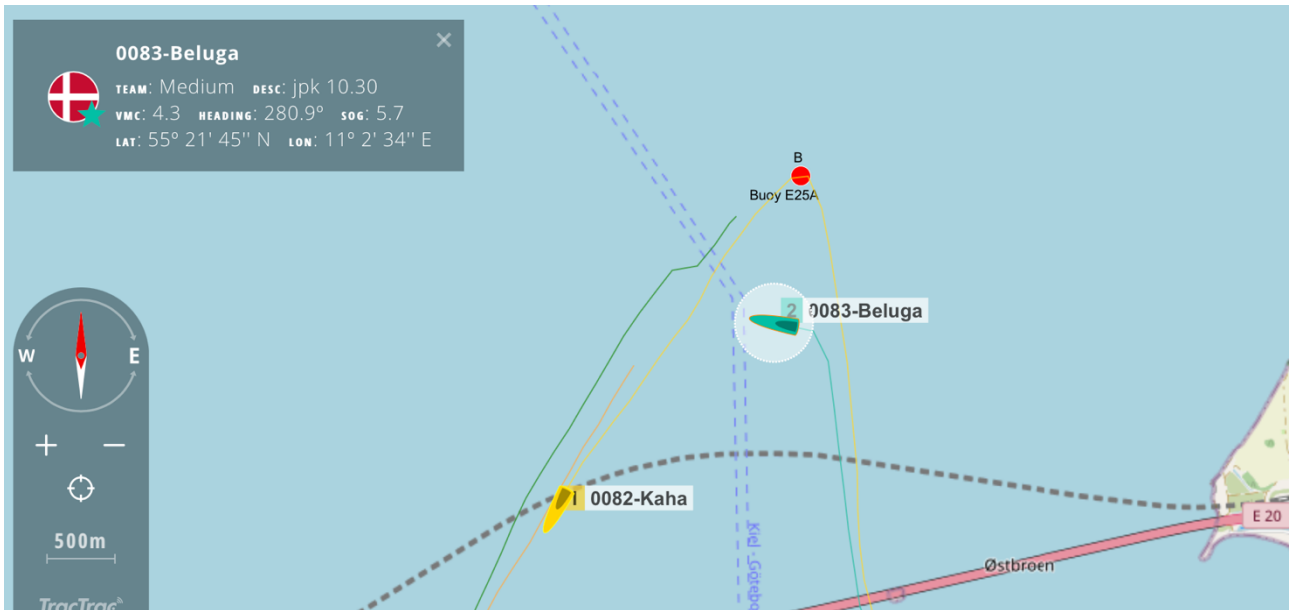

Via email Beluga was asked to produce data or witnesses to support its case. Beluga forwarded a screen dump from the route as the only evidence to support its explanation. It was made clear that all local data showing Belugas tracks from Vegvisir Race Nyborg 2022 was erased from plotter and iPad.

Based on the above-mentioned information and the evidence below the jury concludes that Beluga have not completed the Vegvisir Race 238 NM course as the only mandatory mark on the course E25A was left out. This leads to the disqualification of Beluga.

Below is the evidence: AIS-data from Vesselfinder, the original tractrac track from the race viewer and raw data from tractrac showing timestamp and position from each and every point during the rounding.

Data from Vesselfinder

Data from tractrac race viewer

Raw data from tractrac showing time stamped positions
